

NAREMATech Hackathon 2021

# MANAGING THE NATURAL RESOURCES BEYOND IMAGINATION

US\$1-2 trillion are lost annually. Can we reduce this  
loss through technology and innovation?

**Hack Date: 1 May 2021, 8:00-17:20**  
**Virtual Hack: Selected Teams only**

NRM Prize, HM Prince Prize, Bangkok Penguin  
Prize, Krutour Prize, LEET Prize, Zentory Prize

## Judges and Mentors

Dr. Venkatappa

Prof. Sasaki

Mr. Chaiwat

# NAREMATech Hackathon 2021

## MANAGING THE NATURAL RESOURCES BEYOND IMAGINATION

### Background

- Natural resources are important to support the growing population and economic growth. However, overexploitation and illegal exploitation have resulted in rapid loss and degradation of these important resources. We lose about \$1-2 trillion annually due to illegal fishing, logging, and wildlife trade.
- Conventional management of these resources did not appear to be successful as natural resources continue to deplete. Can we stop these?
- With global enabling policies such as UN SDGs, UN Decade on Ecosystem Restoration, and UN Paris Agreement; impact financing; data and technologies availability; and new societal trends toward Sustainability; there are opportunities to manage our Natural Resources better
- However, Innovating approach, out-of-the-box and disruptive thinking are needed.
- **NAREMATech** or **N**atural **R**esources **M**anagement **T**echnovation Hack aims to bring innovative technology solutions for managing the natural resources at speed and scale with transparent technologies and impact financing.
- You must communicate with course students to form the team. Only six teams are allowed.
- Team leader: Course student!

### Programme and Activities

8:00	Hacking Topic announced virtually
8:00	Introduction and Rules by Nophea Sasaki
8:10	Judge Introduction by Individual Judges
8:30	<b>Hack Part 1:</b> Formulation of problems, development of technology platform
13:00	<b>Hack Part 2:</b> Development of tech platform and pitch deck preparation
15:30	Pitch Deck Submission
16:00	<b>Pitching</b>
17:00	Winners Announcement and Prizes
17:10	Closing Remarks

### Team and Rules

- Team members: 1 + Outsiders (Team leader decide team members)
- Each team is encouraged to use of any technology and publicly available data for NRM that maximize benefits in a sustainable and transparent manner.
- Coding: Coding skills are not required but preferred.
- Pitch must include NRM, impact investment and technology as part of the solutions
- At minimum, pitch must have a title (product name), problem (s) to be addressed, solutions (technology, platform), benefits, market sizes, target users, scalability
- Pitch duration: 5 minutes + 3 for Q & A (strictly followed)
- Only 6 teams are accepted
- Prizes will be announced on 01 May 2021

### Organizing Committee

Prof. Nophea Sasaki  
Dr. Takuji W. Tsusaka  
Dr. Manjunatha Venkatappa  
Ms. Agnes Pardilla  
Mr. Chaiwat Bootchai
